**Save This Date: Announcing the 2017 Conference of the
United States Psychotronics Association (USPA)
July 14-16, 2017**

The United States Psychotronics Association (USPA) will be hosting its annual conference, **July 14th-16th, 2017, at the beautiful *Wyndham Glenview Suites* in Glenview, Illinois (near O'Hare airport Chicago).** **Nest year's conference will, as usual, cover many exciting fields of research and application in the psychotronics field, such as** bioelectromagnetism, biophotons, electromagnetic wave pollution, Rupert Sheldrake's morphogenetic fields, non-hertzian

waves, Wilhelm Reich's orgone energy, pyramid energy and power, Chinese qi (chi) energy, quantum fields, scalar waves, subtle energies, ultra-weak radiation of living matter, and other similar subjects. This would include research related to the works of Ruth Drown, George De La Warr, Royal R. Rife, Nikola Tesla, Marcel Vogel, Georges Lakhovsy, T. Galen Hieronymous, and other pioneers in the psychotronics field.

Further information about the 2017 USPA Conference will be sent out in the coming months. If you have any questions, please send your inquires to: uspsychotronics@yahoo.com

Call for Papers: For an opportunity to speak at the 2017 USPA conference on any of the psychotronics subjects listed above, please send your title, abstract, and a short biography to the email uspsychotronics@yahoo.com . Please title your email with "2017 abstract - (your last name)" Abstracts are due by February 15, 2016, and please include a short bio of yourself. Accepted speakers will need to provide their own transportation and lodging, but the Conference fees will waived.

Call for Vendors/Exhibitors_

The USPA welcomes vendors and exhibitors representing groups, firms, and organizations focused on the interactions of matter, energy, and consciousness. Fees are \$30 per table, plus 10% of gross sales. **For more information please contact Bob Peters, VP of Exhibitor Relations, at: cathyschleyer@msn.com.**

RADIONICS SYMPOSIUM

TAUGHT BY THE MASTERS

Basic and Advanced Radionics Classes Covering
Humans, Livestock, Pets, Crops And Gardens
Best Western Ramkota Hotel
October 25–29, 2016

Basic Radionics

Instructor: Ed Kelly

October 25-26, 2016 - 8:30AM to 5PM

An introduction to the basic theory and hands-on operation of the radionic instrument. This course is designed for the brand new beginner and anyone wanting a refresher on the basics. Topics include:

- History and Theory of Radionics
- Water & Plant/Soil Analysis Worksheets
- Samples and Witnesses
- Use of Reagents: Physical and Electronic
- Energetic Analysis and Balancing
- Basic Rate Scanning/Electronic Dowsing

Participants will practice using and developing a touch for the radionic instrument by completing analysis worksheets on water and soil samples brought from home or taken at the site of the class, then utilizing the instrument in the broadcast mode to energetically balance those elements.

Each individual and family/friend enrollee will be provided with following materials and information:

- Radionics - Book 2: Applied Radionics
- Set of 10 KRT radionic worksheets
- One 300 ml Griffin beaker
- One year: Kelly Research Report

Individual Enrollment	\$400.00
Retake or with Purchase of a New Instrument	\$200.00
Instrument Rental (Supplies are limited!)	\$50.00

Bring: Any Hieronymus-type two-dial radionic instrument, plus samples of water, soil, plants, seeds, and/or animals from home. Please order as soon as possible if a new instrument is required from KRT. A limited number of instruments will be available for rent.

Separate Registration Required for Basic Radionics Class!

RADIONICS SYMPOSIUM - TAUGHT BY THE MASTERS

Advanced Radionics Classes Covering
Humans, Livestock, Pets, Crops And Gardens
Best Western Ramkota Hotel

You must have taken a basic radionics class or attend the 2 day Basic Radionics Class to attend these advanced classes. Equipment is not required to attend the advance classes.

We need a minimum of 35 people registered by September 1, 2016 in order to cover all expenses. Please register as soon as you can!

Preliminary Class Schedule

Day 1

October 27, 2016 - 8AM to 5PM

8AM - 8:30AM - Dr. Ron Barone

Introduction

8:45AM - 9:45AM - Dr. Ron Barone

Uncontrolled cells (Cancer) is the second leading cause of death and will soon be number 1. Medical treatment has shown advances in recent years, but no cure is in sight. We will explore ways that you can help yourself using radionics and other protocols to increase your own well being through prevention and significantly decrease your risk. We will explore the Warburg effect and recent research on epigenetics and the aberrant mitochondrial activity that is common to almost all cancers.

Dr. Ronald Barone: Body, Mind & Spirit

Ron is a consultant on personal well-being; from Blackhawk, SD. Ron brings over 50 years of experience in the health care field. He is a Chiropractic Doctor certified in Orthopedics; with training in advanced Radiology, Nutrition, and Kinesiology. With a focus on environment, organic foods, nutrition, herbs, homeopathics, exercise and correct thinking. He has been doing radionics and energy medicine as his ministry since 1995. Working on people with health issues and longevity is his primary ministry. He is a skilled dowser in the natural and spiritual realm. A personal friend Of Master Dowser and Shaman Raymon Grace. He is also skilled in helping the dying go through transition to the spirit world. He has Considerable experience with discarnates and a wide realm non-physical issues. Ron has worked on many issues in the natural and spiritual realm. Ron teaches people take control of their own well-being, physically and spiritually.

10AM - 11:30AM - Marty Lucas

Rather than looking at health issues from a physical approach, the Dysfunction Protocol looks at issues based upon energy and information. Our physical reality is a combination of energy and information, so health issues are information issues. Change the information and you change the condition. That means addressing the condition as a symptoms of an energetic dysfunction. This is a very direct approach to eliminate the ultimate cause behind the cause.

Marty Lucas, Every Advantage Ag, Urbandale, IA

Marty Lucas is a full-time Radionic Practitioner and teacher out of central Iowa. He is known for in-depth and far-reaching research into the fringes of radionic practice. He is able to present complex scientific and esoteric subjects into easy to understand protocols and procedures.

1PM - 2:30PM - Scott Ertl

Scott Ertl, Master Dowser will cover the different Dowsing tools and also be discussing Basic and Advanced Dowsing Techniques. He will also cover the latest and greatest discoveries that he has found to be useful in the work that he does and will help you advance your work! Scott will be available during the conference for one on one help with your Dowsing and with any related questions or concerns.

Scott Ertl, Marshfield, WI

Scott is a Wisconsin, organic dairy farmer, Radionics operator and Master Dowser and energy mechanic. He has been helping people with stray voltage and energy issues for many years. Scott invented the patented Fertilizer to control stray voltage problems.

RADIONICS SYMPOSIUM - TAUGHT BY THE MASTERS

Day 1 continued

October 27, 2016 - 8AM to 5PM

2:30PM - 4:55PM - **"Pennsylvania" Pete Radatti**

Most people use Radionics in broadcast mode. Broadcast mode is fast, powerful and is a push of energy. Using broadcast the target will get the energy you push whether it is good for them or not. That is why we always check on the amount of time to broadcast, check appropriateness (GV, White Light) and insure that all cold scans are done with "harm to no one". Some people also use potentization, usually to water or oil. This is also powerful and has the advantage that it can be applied on a as-needed basis instead of on a as-available basis. Depending upon how it is used potentization could be a push or a pull of energy. If you drink the water you are absorbing all of it and you again need to follow the rules of broadcast.

There is a third way. This method directly applies the energies needed, when needed, where needed and always with harm to no one. It is like having a dedicated skilled radionics operator working 24 hours a day, 7 days a week on just one target. Any radionics operator can use this technique and the learning curve is low for existing operators. The additional costs are very low and the materials can be picked-up locally, sometimes for free.

"Pennsylvania" Pete Radatti

Pennsylvania Pete Radatti is best known for his articles in the KRT newsletter, training new radionics operators, grassroots radionics support groups (Conshohocken Radionics) in www.meetup.com, his radionics training manual "A Fun Short Course in Beginning Radionics" available on Kindle readers via Amazon.com and research.

7PM - 8:30PM - **Hands On Session**

Bring your sheets, your problems or your own personal concerns to work on. Teachers will be available to help guide you to a solution.

Day 2

October 28, 2016 - 8AM to 5PM

8AM - 9:45AM - **Tim Lippert**

"Getting to the Core of Any Problem and Solving It." Tim will walk you through his methods of problem solving using Radionics and Radiesthesia [Dowsing]. Is it bacterial, viral, fungal, mycoplasmic, environmental, spiritual, mental or emotional??? This easy, step by step, logical approach will quickly and efficiently help you identify the real core issues that need to be addressed in any challenge whether it be in plants, pets, animals or people.

Tim Lippert; President, Livestock Innovations, Inc.

Tim has done Radionic, Naturopathic, and Alternative Medical work for clients in over 25 states, Belize, Mexico, Canada, Australia, Great Britain, and the Philippines. He owns and operates one of the most elaborate Radionics labs in North America. His specialties include agricultural and environmental consulting, Geo-biology, water treatment, mold & myco-toxins, Lyme Disease, Sleep Apnea, and spiritual issues.

RADIONICS SYMPOSIUM - TAUGHT BY THE MASTERS

Day 2

October 28, 2016 - 8AM to 5PM

10AM - 11:30AM - **Robin Hermanson**

Hulda Regehr Clarks life work is recorded in the seven books she wrote and published during her 80 year life span. With the exception of "The Cure For All Advanced Cancer", all seven books are written in layman terminology . If to-days health practitioner uses the Kelly computerized rate book and the variable condenser tuning to apply the Hulda Clark protocol explained in her most popular book " The Cure For All Diseases" he or she will learn how to eliminate specific pollutants, parasites, bacteria and viruses associated with common diseases. "The curse causeless will not come" ie Proverbs. Remove the cause, the disease no longer exists. Robin Hermanson will expound on Hulda Clarks life work and show how it can be applied to greatly enhance your success as a heath practitioner.

Robin Hermanson, Garretson, SD

Robin is a Professional Mechanical Engineer, Green Building Engineer and Certified Energy Manager. He is also a Certified Organic Farmer and has 360 acres. For 14 years, Robin has researched health and longevity through the Reams Biological Theory of Ionization. Robin is a veteran radionics operator helping people solve a wide range of health problems with alternative methods and detoxification.

1PM - 2:30PM, 2:45PM - 4:15PM - **George Kuepper**

This class will address the adaptation and utilization of radionics for alternative (organic, eco-ag, Biodynamic, etc.) farming and gardening. It will provide a brief overview of early applications, such as the pest control activities pioneered by UKACO. Discussions will become more detailed as we talk about fertilizer selection and application, broadcasting, making potencies, and using aids such as almanacs to improve performance. Practical examples will be drawn from personal experience managing small fruit and vegetable crops on a market farming scale. The session will wind up focusing on new research applying dowsing and radionics to various aspects of regenerative farming including biochar, compost, compost teas, and system design.

George Kuepper

George Kuepper has a BA in Geography and an MS in Agronomy from the University of Wisconsin with 38 years of experience with sustainable and organic agriculture. In that time, he has worked as a farm project manager, researcher, educator, and consultant primarily for the non-profit sector. He began studying radionics in 1986 to address crop and soil health problems on blueberry and blackberry plantings that were not responding to conventional prescriptions. After remarkable results, he became a committed practitioner—studying with many different instructors in the U.S. including Steve Westin, Jerry Fridenstine, Mark Moeller, Gene Litweiler, and Lutie Larsen. In the late 1990s, George wrote two training manuals: Radionics, Reality & Man and Plants, Soils, Earth Energy, and Radionics, to aid novices in skill development and a range of practical applications. He is the owner of Midsouth Radionics—located in Northwest Arkansas—which is dedicated to subtle energy research and education, primarily for farming and gardening. George is in the slow process of retiring from his day job as horticulture program manager and intern coordinator for the Kerr Center for Sustainable Agriculture in Oklahoma. He plans to spend much more time focused on radionics and dowsing in the coming years.

4:30PM - 5PM - **Brian Besco**

Accessing the higher dimensions - We utilize our equipment to influence change in the physical world through a knowing, and operating the equipment. In 30 minutes, I will teach you to own and operate several powerful tools that are not physical. We can handle their physical counterparts in the form of Tensor-based technology, while learning to access their true energetic form. This allows you to take practical, powerful, tools home with you! There have been several leaps in this technology already this year, and this class promises to be something highly profound by the time we meet!

Brian Besco

Brian Besco is the leader in research and development of Tensor Technologies. He considers the Tensor tools to be a combination of the physical sciences and spiritual technologies. He is a published author and manufacturer of the Tensor tools, and spoke at the 2013 Tesla Technology Convention on the Tensor Fields. Brian has also created several new modalities of subtle energy work, and teaches workshops around the world.

RADIONICS SYMPOSIUM - TAUGHT BY THE MASTERS

Day 2 continued

October 28, 2016 - 8AM to 5PM

7PM - 8:30PM - **Hands On Session**

Bring your sheets, your problems or your own personal concerns to work on. Teachers will be available to help guide you to a solution.

Day 3

October 29, 2016 - 8AM to 5PM

8AM - 9:45AM - **Ed Kelly**

"The History of Kelly Research Technologies" - Ed Kelly will review the history of KRT through the lens of the equipment and innovations produced, while identifying the historical figures and inventions that have influenced this progress. A continuous focus will be placed on identifying practical methods and techniques by which these features can improve the effectiveness of the radionic research being done on the farm and in the home.

Ed Kelly, Kelly Research Technologies

KRT (www.kellyresearchtech.com) has been delivering radionic instruments, equipment, and information to the world for 37 years. Sister company BETAR USA (www.betar.com) produces focused vibroacoustic sound therapy systems that allow riders to literally *feel* their favorite music - every note and drum beat - as a sonic energy massage that melts away physical pain, emotional stress, and/or mental anxiety. Ed Kelly took the leadership position in these firms following the untimely passage of his father, founder Peter J. Kelly, in 2004. Ed has been involved in radionics and the esoteric arts for his entire life, literally growing up around such giants as T. Galen Hieronymus, Thomas Bearden, Bob Beck, Bob Beutlich, and countless other inventors and researchers. Ed has a BS in Geology from the University of Georgia, an MBA from Kennesaw State University, and served the nation in the U.S. Marines.

10AM - 10:45AM - **Cory Stover**

We will examine the use of engraved patterns, symbols, etc. in radionic broadcasting and potentizing. Information is embedded within patterns as vibrational frequency slows to condense into form. This process of "in-form"-ing is reflected in sacred geometry, symbol, even architecture - which has been likened to "frozen music." Through the use of engraved plates we can transfer the complex information encoded within these patterns to broaden and enhance radionic broadcasting and potentizing.

Cory Stover

Cory Stover is an inventor, intuitive and expert dowser. He is the maker of the Cory Coil, Colossus energizer and Avalon well among other radionics tools in development.

10:45AM- 11:30AM - **Sarah Emond**

Sarah will present a spirit led class. She will tune in and provide information, instruction and guidance in the areas spirit leads that will be most beneficial and relevant for attendees.

Sarah Emond, Essence Healing

Sarah is a Certified Reflexologist, Reiki Master, Radionics Practitioner, Intuitive Facilitator, and Energy Practitioner. She uses her intuitive abilities to help her clients bring their spiritual and energy bodies into balance, maintain that balance and begin to increase its' abilities.

RADIONICS SYMPOSIUM - TAUGHT BY THE MASTERS

Day 3

October 29, 2016 - 8AM to 5PM

1PM– 3PM - **Daniel Taylor**

Gene Keys - “The 64 Gene Keys herald a new approach to truth, since they are the core archetypes found in every conceivable aspect of the universe. The 64-bit matrix is integral to physics, biology, music, geometry, architecture, computer programming and most fields of human research and endeavor. It is therefore no wonder that they continue to be discovered at the core of all natural systems. They form the foundational tetrahedral structure underlying space-time itself. As we shall see, our very DNA is based on this same 64-fold geometry, making us a holographic microcosm of the entire cosmos. Many of the great ancient civilizations and wisdom traditions, including the Vedic, Egyptian, Mayan, and Chinese, encoded this mathematical structure into their art, cosmology, and science. Wherever we look, from the structure of our cells to the rhythm and movement of the celestial bodies, we see the same fractal patterns, endlessly repeating themselves in ever more unique shapes and forms... This precise mathematical correlation between the I Ching and the genetic code allows us to create a new holistic language that resonates within the living cells of your body. In effect, the 64 Gene Keys are a Gene I Ching – a book that talks directly to your DNA.” -- Gene Keys, pages xxi-xxii, Richard Rudd, 2013.

Daniel Taylor will present an overview of Richard Rudd’s work with the Gene Keys, and more importantly, describe how this system can be used radionically, to even greater avail. This will be an advanced session. Participants should have copies of Gene Keys, by Richard Rudd, for reference. Also see: <http://www.genekeys.com/>

Daniel Taylor

Daniel Taylor has been involved with energy work since 2010. He double-majored in Chemistry and Biology, and double-minored in Physics and Mathematics, to prepare for PhD level research in Biophysics. His undergraduate research involved single molecule tethering, magnetic tweezer manipulation, and Fluorescence Resonance Energy Transfer (FRET) analysis. Radionic research is a full-time part of his daily regimen. He is also pursuing Licentiatehips with the Radionics and Dowsing Institute of Canada, and The Radionics Association of the UK.

3:15PM– 4PM - **Dr. Ron Barone**

A relook at spooky II and Rife technology as a broadcasting adjunct for many conditions. Learn the sweep protocols. And how to hook the device to the Kelly equipment.

4PM– 5PM - **Questions and Answers**

All teachers will be available for you to ask questions and get clarification.

Among the Missing, (and Updates): A Column about Missing People, Organizations, Periodicals, Books, Artifacts, and Collections in the Psychotronics Field

by John H. Reed, M.D

This is a new “column” or section of the USPA Newsletter, and will be an ongoing part of every issue, with the purpose of helping the USPA, as well as, our members and research associates locate people, organizations, periodicals, books, artifacts, collections, and other items that have seemingly disappeared, or have been extremely difficult to find. **Updates will be added, and each missing item will be retained in future issues until it is found or otherwise resolved, since some readers may not have seen prior issues of the USPA Newsletter or the original notice of the missing item.**

In addition, this will also serve as a “People Locator Service” to help find authors and researchers on psychotronics, radionics, subtle energies, energy medicine, and related subjects, who have “disappeared” or have died long ago, and whose relatives you may be trying to find in order to preserve the research papers and collection of that person.

In our research and reading, we all have encountered people, organizations, periodicals, books, articles, or other things that we have tried to find, and some people have searched for years to find something, but have not yet found it, despite the vast resources of the Internet. However, with our large USPA membership, we can all help one another find what we have been searching for. Some of you may have experience in genealogical research, or private investigation, law enforcement, or even intelligence work which you could utilize to help each other, or perhaps just make suggestions on how or where to search for something.

So if there is anything you have been searching for and need help to find, please write to me, John H. Reed, M.D. at: joreed43@gmail.com, and I will include your search help request in the next and subsequent issues of the USPA Newsletter. And if you have any information about an item that is listed in “**Among the Missing**”, please write to the same email address and share what you know or your suggestions. If there is something that is confidential, your confidentiality request will be honored and protected.

Missing People, and Updates:

We are trying to track down some of the original directors and officers of the United States Psychotronics Association (USPA), when it was organized in 1975, with the word “Radionics” in the organization title. Does anyone have any information on the current whereabouts of the following people, or family members, if the person is known to have passed away, or where they passed away?? Please check Ancestry.com, social media websites, newspaper archives, and any other databases you have to help find these people.

1. Dr. Marcel Vogel and his Research Papers: Does anyone know what became of the papers and files of Dr. Marcel Vogel, who died in 1991? Dr. Vogel did extensive research on crystals and crystal healing, pyramid power, the “Backster Effect” involving plants and their bioenergetic fields, and a number of other psychotronics related subjects. He also spoke numerous times at USPA conferences. Marcel Vogel worked at IBM for 27 years and had 32 patents. If you have any knowledge about Marcel Vogel and what became of his papers and files after he died, please write to your editor at: joreed43@gmail.com. The USPA would like to make sure that all of his papers are preserved.

2. Colonel I. B. Clark, a Director of the USPA in the first two years of its existence in 1975-1976, and then second Vice President in 1977. **Update: USPA Board Member, Scott Beutlich, sent information telling that in 1973 Colonel Clark’s address was P.O. Drawer One, Marble Falls, Texas 78654. At that time, he operated a radiesthesia and radionics locating service. A 1958 newspaper article also stated that Col. I. B. Clark, was head of Clark Enterprises of Cedar Hill, Texas (a city South of Dallas on Highway 67. At that time Col. Clark was in the ranching business and raises hogs, sheep and cattle. If any of you have access to Ancestry.com, perhaps you could find a listing for him or his relatives.**

3. Dr. Otha Wingo, Original USPA Board Director, 1975-1977; Update: A researcher provided information that Ortha Wingo’s full name is Elvis Ortha Wingo, and currently

4. Paul Sauvin, USPA 2nd Vice Pres., 1976 and 1st Vice Pres., 1977

5.. Henry Nagorka, USPA 1st Vice Pres., 1975 and 1976, and then President, of the USPA in 1977.

Missing Pages of a Book

The book, **Relationship Between Parapsychology and Gravity, Vol. 3 of Handbook of Unusual Energies, by J.G. Gallimore**, was published by Borderland Sciences in the 1970’s, although the date of publication and copyright date were not noted in this book. The USPA has this book in its library, and plans to republish it for the Gallimore family, but unfortunately, pages 208 and 209 are missing from the printed book. It appears that this is a publisher printing error, because page 210 is printed on the back side of page 207. However, it is possible that pages 208 and 209 were missing from the manuscript when it was sent to Borderlands for publication. Or these pages of the manuscript may have been inadvertently lost by the publisher, or possibly they were intentionally removed by someone from the manuscript prior to publication.

Do any of you have a copy of this book, and if so, would you please check to see if it has pages 208 and 209? I have searched the WorldCat, which shows the books and monograph holdings of virtually every public and university library in the United States and Canada, and many of the large libraries in the UK and elsewhere in the

world. But not a single library has this book in its collection. If by chance you have a copy, please let me know what you find by emailing the editor at: joreed43@gmail.com

Missing Organizations:

- 1. International Association for Psychotronic Research (IAPR):** Does anyone know what became of the International Association for Psychotronic Research? And do any of you have copies of its meeting proceedings or newsletter, if such a newsletter were published? It was founded in 1973, even before the United States Psychotronic Association (USPA), which was founded in 1975. However, the current location or activities of the IAPR are unknown.

The IAPR held numerous international conferences around the world, beginning with its first in 1974 in Prague, then Czechoslovakia. At this conference, Dr. Zdenek Rejdak was elected president for the Eastern Division of the IAPR, and Dr. Stanley Krippner was elected president for the West. The 8th International Conference on Psychotronic Research was held in Milwaukee, Wisconsin, 1993, as a joint conference with the United States Psychotronics Association (USPA), but it is unknown if any subsequent conferences of the IAPR were held.

Proceedings of each of these conferences were published. If copies of these proceedings can be obtained, or any newsletters that it may have published, we will add them to the USPA Library and make them available to USPA members. If you have any knowledge about this organization, please write to the editor at: joreed43@gmail.com

- 2. International Radionics Association (IRA):** Does anyone know anything about the **International Radionics Association (IRA)**, which was located in Springfield, Missouri in the late 1940s. This is known, because a book called **The Truth about Radionics** was published in 1947 by this organization, and although the author's name is anonymous, it is highly probable that the author was T. Galen Hieronymus, who passed away many years ago.

I checked several newspaper databases, and references to this organization were found in the press as far back as the early 1930s, and as late as the early 1960s, but nothing more recent than that. If you have any knowledge about this organization, please write to the editor at: joreed43@gmail.com

Missing Periodicals:

- 1. British Journal of Radiesthesia and Radionics:** Does anyone have any issues of The British Journal of Radiesthesia and Radionics. It was published in London,

England, by the British Radiesthesia Association, 1953-1963. The original title was **British Journal of Radiesthesia**, published from 1953-1957. No libraries in the United States, public or university, have this journal in their collection., and only five libraries elsewhere in the world are known to have any issues at all: The British Museum Library (AKA The British Library), Oxford, Cambridge, the National Library of Scotland, and Trinity College Library, in Dublin Ireland. If you have any issues of this periodical, will you please let me know? And for our members and associates in The UK and Ireland, if you can access these periodicals at any of the above libraries, you would do a huge service for all of us if you would Xerox what issues are available and send them to me. A generous donor has offered to pay whatever expenses are involved for doing this service. We will add them to the USPA Library and make them available to researchers. Please contact the editor at: joreed43@gmail.com

- 2. Journal of Scientific Controversy.** This periodical was referred to on [page 49 of the Vol. 1, No. 1 \(Spring, 1967\) issue of the INFO: The Journal of the International Fortean Organization](#). Someone was trying to find out about it even then, 49 years ago, and said that this journal was “formerly published in Boulder , Colorado” implying that it may have ceased publication prior to 1967, or that it moved somewhere else after being published for a period of time in Boulder. I have searched the WorldCat, which shows the periodical holdings of virtually every public and university library in the United States and Canada, and many of the large libraries in the UK and elsewhere overseas. But this title, or anything close to it does not exist in the WorldCat database, so that indicates that this periodical title is not held in any library, even special collections, which are also included in WorldCat. However, this does not mean that the periodical does not exist, since many periodicals in the psychotronics , scientific anomalies and similar fields are excluded from libraries. If any of you have ever heard of this periodical or know anything about it, such as its editor, publisher, or other information, please write to the editor at: joreed43@gmail.com

Missing Books:

Rhea White and Larissa Vilenskaya wrote a book titled **Parapsychology in the Soviet Union, Eastern Europe, and China: A Compendium of Information**. It was supposedly published by Scarecrow Press of Metuchen, NJ, a well know publisher of reference books. This book was listed as reference work #680 on [page 213 of Rhea White's book, Parapsychology: New Sources of Information, 1973-1989](#) , also published by Scarecrow Press. I called the publisher, and they said they have never published this book, and know nothing about it. As you can see from entry #680, Rhea White noted that this book was “in press”, so it may have been in a preparation stage, but the manuscript may never have been sent to Scarecrow Press.

Aganin, I have searched the WorldCat, which shows books and monograph holdings of virtually every public and university library in the United States and Canada, and many of the large libraries in the UK and elsewhere in the world. But this book title does not exist in the WorldCat database, which indicates that this book is not held in any library, even special collections, which are also included in WorldCat. Unfortunately, I was unable to ask either of the authors about this, since both have passed away.

Rhea White was a well known parapsychology researcher, so some of you may have known her or heard her speak of the missing book manuscript that she was working on. Larissa Vilenskaya was from Russia, but lived and worked in the San Francisco area, and she was a prolific researcher on Russian and Eastern European psychotronics research. Please write to your editor at: joreed43@gmail.com if you have any information about this at all.

The Adventure of the Italian Society of Radionics: When Reality Exceeds Dreams

Alessandra Previdi

A few months ago I received a letter from the Radionic Association appointing me an honorary member. I was touched and I thought of all those years ago, when I had just turned 24 when, full of enthusiasm, hesitation and hope, I attended the introductory weekend at Sparsholt College in Winchester.

My English was not all that great and I'd never seen a pendulum in my whole life. I was a super skeptical biologist dissatisfied with her studies, and I was stunned by reading the book *Report on Radionics* by Russell.

I really wanted to become a radionic operator, to treat people and plants remotely and who knows what other kind of miracles were waiting for me!!!

The road has not been easy, far from it, but here I am now. I can be happy and proud about myself and what I've been doing in all these years. Thank you so much for this unexpected gift, this award for my life spent in radionics, my great passion!

You have read on the pages of this journal about my adventures in Colombia with the *Radionics Without Borders* project. My intentions with this article are to update you on the work done so far and also on the current situation of radionics in Italy.

For those unaware, in 2007 I started a project called *Radionics without Borders* with the Italian Society of Radionics of which, in fact, I am the founder and president. The project concerns the creation of a radionic school and a

class of radionic professionals in Latin America. A programme conceived from the consideration of the extreme state of poverty of a large part of these populations (and therefore, what better than radionics for small groups who may be isolated on mountains or for poor families, to give them the chance to work and get results with simple pieces of paper?) and simultaneously use their great mental openness and tradition regarding the invisible and the use of subtle energy.

The occasion was offered me unexpectedly by a student who was working for an NGO in Latin America and suggested that I go to Colombia, where a group of social and health workers and shamans were eager to meet me and to learn radionics from me. I didn't talk the language in those days, but the boldness that has always distinguished me helped me out. I prepared a simple, special and cheap program suitable for their needs and so I left. I lived a truly unforgettable adventure. The seed was planted, but my commitment to my small daughter kept me here in Italy. The vice president, Federico Marincola, gave an extremely positive reaction and there was great demand, and so he took on the task to go back to Colombia to teach, instead of me. Below is his report.

“In 2010, taken by what I call 'divine fervour', I worked out the crazy idea to throw myself heart and soul into an absolutely new adventure: to go on a mission to Central America to teach radionics in the context of the project *Radionics Without Borders* of SIRR (the Italian Radionics Society), that after the visit of Alessandra to Colombia, was now required in Nicaragua too. Gianpaola Facchin, one of Alessandra's radionic practitioners and the first organizer of her trip in Colombia held some introductory levels of dowsing and radionics in Managua. People were enthusiastic.

I arrived in Managua, with the organizational and logistical support of Didi Prema of the local Ananda Marga, I found myself in front of a very large class of 'Radionics First Level' students. They were well educated, cheerful, friendly and especially motivated. The result was excellent, and the students asked me to continue the course until graduation. So I began regular trips, two or three times a year, to undertake the training of future Nicaraguan radionic practitioners.

Soon Guatemala was included in my travels, and there I taught radionics to a group of students in the capital, and at the same time I started entering into the depths of the spiritual world of the Maya people.

The Mayans, bright and intelligent people, immediately noticed that with the pendulum, radionics and the Raymon Grace protocol they could readily

get rid of negativity, diseases and pain. I was immediately named 'El Gringo curandero' (the word 'Gringo' means a person from the US, but it seems that they use it for all the white-skinned foreigners).

Dowsing Class

Since I gained their trust, I took the opportunity to undergo special training myself, and in 2011 I was introduced to Ajq'ij, or 'Mayan Spiritual Guide'. They started me into the ancestral Maya cosmivision, prepared me to celebrate the ceremonies of the 'Quema' (sacred fire), taught me to work with the 20 Nawales and the Sacred Calendar, to dowse with the traditional technique of Tzité (Pole Pito red beans, a sacred plant) and many other absolutely fascinating things. At the same time I began the teaching projects of radionics to the native Matagalpa (Nicaragua) and Xinka (Guatemala). Mostly farmers, these friends immediately showed an incredible healing talent. Meanwhile, at the end of the Radionics School levels, the first diplomas from the Italian Radionics Society were obtained in Nicaragua and Guatemala. Alessandra (in Italian) read and evaluated the students' theses, and I (on the website) examined the candidates by oral examination. Central America had its first qualified radionic practitioners! Among them I chose some teachers for the

Lesson with Federico

radionics courses at First and Second level: Alenka Daetz, Carmen Zamora, Carolina Escobar, José Antonio Pacheco and Silvia Taleno. I certainly couldn't do it all alone!

With the help of my neo-professors, our radionics managed to arrive in Honduras

and then, with the work of Karla Mejia, also in El Salvador.

Last but not least, in 2014, after 5 years of hard work, the big news arrived: thanks to some radionic practitioners in Managua, the Nicaraguan National Assembly approved and officially included radionics (as it has been defined by the Italian Society of Radionics as well as our school), in the new law regarding Natural Medicine ('LEY DE NATURAL MEDICINE, TERAPIAS COMPLEMENTARIAS Y PRODUCTOS NATURALES EN NICARAGUA').

Federico with graduating student

In practice what happened was that in Nicaragua, radionic practitioners had the same basic rights and duties as doctors.

Read here: under 'Radionics' in Artículo 10. Conceptos y definiciones): <http://legislacion.asamblea.gob.ni/./dd7cde1b9616253a06257c>.

The text of the law that concerns us reports: 'radionics: es una de Curación energética complementaria therapy distancia que se utiliza para diagnosticar, prevenir, rehabilitar, y/o tratar las enfermedades, físicas, mentales, emocionales Energéticas y. Utiliza instrumentos especiales energéticos conectados a la facultad radiesthesis ser humano; además utiliza a específico

mentales, emocionales Energéticas y. Utiliza instrumentos especiales energéticos conectados a la facultad radiesthesis ser humano; además utiliza a específico

método de análisis, y está el operador facultado para ello by preparación técnica y profesional de la Italian Society of Radionics. ‘

In practice radionics had been officially recognized by a State as a valid natural therapy and support. FOR THE FIRST TIME IN THE

WORLD! I could not believe it... The inclusion of radionics in that Act is on account of the radionic operator and solicitor Carmen Zamora (my former student), current President of the ‘Fundación de Centroamérica y Radionics’. Yes, because the ‘kids’ have grown up and have founded their own association. They still need help though, because over there everything goes very slowly.

Current situation: the mission of *Radionics Sin Fronteras* SIRR is going ahead successfully. Today (Spring 2016) in Central America we have 33 Radionic practitioners graduated from SIRR: 24 in Nicaragua, 4 in El Salvador, 3 in Honduras and 2 in Guatemala. They are mainly doctors, psychologists and Natural Medicine therapists.

We regularly run radionic courses in all of these nations, so before the end of 2016 the number of radionic practitioners should increase. We hope in the near future to bring radionics to Belize, Costa Rica and Panama.”

I’ve joked many times with Federico: Learn radionics and travel the world!!! We took as a ref-

Dowsing tuition

Dowsing tuition

erence the recruitment poster for the US Navy. And for us it was just like this! It was great following all this work and bringing our techniques to these far-away countries, and also to be associated with them

and learn from them – they are very special people, connected to nature, to energy, and they are all extraordinary natural healers. The students have been very creative. Some of them invented radionic devices, others curhealing patterns...

Some of the students started using specific painted pebbles with colors and healing numbers (cosmic) to put in beds or in pockets. One student in particular had good results with children... and their parents! As part of the radionic instrumentation, we supply them with all sorts of diagrams, from the French ones to those of paper by doctor Don Gerrard at Sanjeevini. We also adopted the Radionix, a radionic software created specifically by our engineer friend Antonio Langone, where you can put rates, colours, patterns, various remedies, sounds and more. It's cheap and it works very well!

As for Italy, after the initial mistrust in 1995, where no one knew what radionics was and on top looked at you like a sorceress ready to give the evil eye, today we are witnessing a real boom. All wish to learn radionics, books full of diagrams are published, websites and FB pages on internet are being created. Despite the fierce competition, we remain the ultimate association, the reference point for radionics in Italy. On our side there is our history (we are the oldest), our activities, our professional and serious school, and our constant attention to ethics too. All this is very much appreciated.

I have never stopped learning and I went around the world always look-

ing for new explanations to the unsolved mysteries that radionics still offers! The accumulated background of teaching became remarkable especially compared to radiesthesia, that in USA has increased to incredible levels. In practice with the pendulum apart from analyzing, you can now do everything. Turning it clockwise you might have a connection with spiritual guides, angels and other entities similar to this, treatments can be sent, you can cure, change situations, make energy cleaning, take off geopathies, move water veins under the houses or reactivate dry wells (that's right, and I have learned to do it by myself, isn't it amazing??? !!!). It's a fascinating method that underpins and helps the development and establishment of the practical use of our mental power and our spirituality. For me, learning all this has been an important part of my own spiritual path. A few years ago I was in Vermont at the conference of the American dowers (www.dowers.org). This was an amazing experience, hundreds of people gathered in a college and so many speakers holding courses on the most diverse and fascinating things, from aliens to the runes, from the 'use of radiesthesia on archaeological finds, to the power points of the Earth'...of course one of the speakers was me, and you have to keep in mind the fact that radionics was banned in the United States after the case of the great Ruth Drown and it seemed that almost no one in America knew what it was!!! I expected to find aggressive people or even ones bored by trite and hackneyed information but...they didn't even know what I was talking about !!!!

I don't understand a lot about life but I do know that I'm a pioneer. I'm not a healer, not a shaman, I don't have extrasensory perception, or dreams or other paranormal faculties, but things of the future just find me and I bring them in our world, I transmit new knowledge, I open new roads.

I plant the seeds. Just think about the fact that this year at the American convention there was a radionics course!

So, like a good pioneer I decided that we could expand and I included radiesthesia in the school program, and I renamed the association the 'Italian Society of Radionics and Radiesthesia'. Given the number of competitors I've decided to focus on quality and continuous innovation (which is my mission!). Our school is now divided into a technical radiesthetic diploma and radionic practitioner. The first diploma is achieved in a year and a half and the second one in two years and a half. It is getting more and more successful, partly because many are frightened by the instruments and the preparation needed to become a good radionic practitioner but they are people of value and they can do well without tools too, so they can get a preparation and the ability to work with energy cleaning, radionics on paper and

much more (the levels of radiesthesia are 3 and include much teaching; from the Raymon Grace techniques, the fantastic dowser, American coach who is really everyone's favorite for the ease and efficacy of his techniques which include the study and cleaning of past lives, the geopathies and their treatment, counseling and empowerment).

The school has always been recognised for its great seriousness and professionalism, and above all thanks to my international reputation, you feel to belong to something larger than just a partnership, but to a worldwide movement of radionic practitioners and specific knowledge. This is very nice and I find it very aligned with the expansion of the boundaries due to internet access and the new 'quantum' culture: we are in the age of Aquarius!

School of Radionics

We also have projects involving agriculture, many requests not only for treatments but especially to learn the techniques. Farmers have the desire to return to nature, to treat the fields and the crops in a different way trying to stay as far as possible from poisons. There is also our research area that sees the opportunity to use radionics for much more, like the preservation and assimilation of food to enhance sports performances, or to insert information on all different kinds of products and more. We are open to any suggestion, any exchange and cooperation! THIS IS THE FUTURE !!!

The promotion of radionics in Italy continues as usual with articles on Facebook, with conferences around the country and not to forget our annual convention that attracts new people and allows the exchange of ideas and contacts. Next year, for example, it is going to be held in Rome on April 30. An Brazilian radionic practitioner will join us, Regia Prado who invented the

radionic table, a magnificent design with many possibilities for the trained practitioner's mind...really fascinating!

A representative of Biogeometry will also be there to discuss this with us (www.biogeometry.ca), a field of research that is emerging and that I am approaching with enthusiasm in my unrestrained pursuit of the 'whys' and the 'hows'...Ibrahim Karim, the founder, is an Egyptian architect who discovered the secrets sought by French radiesthesia, Chaumery, de Belizal, Morel, Enel, the Servranx brothers and many others. In practice he discovered how to use the famous waves of form and what they are in a radionic diagram as well

as a three-dimensional structure or in a pyramid or the universal pendulum. In Switzerland an entire country was freed from harmful electromagnetic waves coming from a Telecom repeater placed on the bell tower only by using simple oddly shaped and really cheap objects...go and read

it on their site ... Fantastic! I repeat: THIS is 'THE FUTURE' !!!

I never get tired of the Radionic world, and it's true that I like to cross over the borders, but everything finally seems to

From top to bottom: Guarigione device; inside of radionic instrument; Pegotty instrument

be one thing, our ability to create, to intervene on reality, to change our lives and the lives of others and the planet. When studying and researching for my report 'Radionic Tools: Radionics vs Charts' for our last year's conference in Bologna, I tried to research similarities and differences between the instruments of classical radionics (for example the instrument with knobs and radionic drawings on paper) and I found that there is not much difference between them as both can act as health checkers or healing devices. Both, the knobs on the instrument and the grid on the drawing do nothing but divide the energies...to separate them and tune them. Isn't it amazing ???

This summer I was in Crimea (Russia) in Feodosia, the Bronnikov Center following some courses. Vyacheslav Bronnikov is a Russian researcher who deals with human potential development, and he has collected all the knowledge from the East and West world and has reformulated it for contemporary man and for our times. His purpose is to form the cosmic man and to help the transition of our planet towards a new renaissance. His techniques are quick, says Vadim Zeland, another great Russian, creator of Transurfing and one of his students: 'What the Tibetan monks learned in 10 years Bronnikov makes you get it in 3 months.'

Centro Bronnikov

As you can imagine he teaches many things. His spiritual teachings are based on geometric patterns that the mind doesn't understand but something inside you transposes them over time. He talks about every deep issue in the human constitution, about cosmic forces and their laws, and I per-

sonally admit that I cannot keep up with him, my brain can't do it, it limps. I need to empty it from all the useless things that I put inside and that I can now replace. We went out in the garden of the center where there were geometric symbols drawn on the floor using the same principles and the same forces he made you feel in your body. On the last day he carried out an experiment. People stood at the center of a star inscribed in circles and he laid a series of cards with specific designs on them. I was outside of the circle and I could feel a wall of energy. Then he changed those cards for others, and the feeling was now all in reverse, now it was like going upwards, it was all bright.

Change of polarity? I don't know, but I know that there there was a lot of wisdom. I really hope so much that this research can open for me the door of true knowledge of spirituality of geometry and mathematics...and the chance to bring heaven to earth and earth to heaven. Uuuhhhmmm.... perhaps I'm being too ambitious? Maybe I expect the next award by God Himself!!!

Yes, radionics was and is a great adventure to me, it spiced up my life. And for this I am really grateful to the Radionic Association, as there everything started. So, THANK YOU so much!!!

Nobel Laureate Luc Montagnier Discovers EM Waves Emanating from DNA

by John H. Reed, M.D.

The world famous virologist and Nobel laureate Luc Montagnier, (pictured at left) who discovered the AIDS virus, announced in December, 2010, that he had discovered that electromagnetic waves emanate from the highly diluted DNA of various pathogens. (1)(2) This is a highly significant finding that has implications for all scientists doing research in the life sciences, but especially research on microbes, subtle energy, radionics, homeopathy, water structure, and related subjects.

Montagnier published his findings in an article entitled “DNA Waves and Water”, which appeared in the well known publication, Journal of Physics: Conference Series. (2) But his mainstream colleagues relentlessly criticized his finding to such a degree that Montagnier left France for China to escape what he called the “intellectual terrorism” he faced in France, compared to the relative research freedom he would have in China, where his research on this subject matter was welcome. (1)

Montagnier continued his research on DNA emanations and later returned to France, where, in 2015, he published a related article entitled, “Transduction of DNA Information Through Water and Electromagnetic Waves.” The abstract of this article says that the experimental conditions are described by which electromagnetic signals of low frequency can be emitted by diluted aqueous solutions of some bacterial and viral DNAs . (3)

In addition, the article describes how the recorded electromagnetic waves and nanostructures induced in water carry the DNA information, and how that information can be retrieved from the DNA by classical PCR (Polymerase Chain Reaction) DNA amplification. Moreover, Montagnier tells that such a transduction process has also

been observed in living human cells exposed to electromagnetic waves. The article abstract goes on to say that Montagnier's experiments suggest that coherent long range molecular interaction must be at work in water so to allow the observed features, and that quantum field theory analysis of the phenomenon is presented. (3)

These highly significant findings could explain in part the mechanism of how homeopathy works, as well as, the phenomenon of "water memory" observed by Jacques Benveniste (4)(5), and the "mitogenetic radiation" that was observed by Alexander Gurwitsch (pictured above) and others as early as the 1920s, but whose observations were, and have been, roundly denied and criticized by mainstream scientist from that time to the present. (6)

Anyone interested in the research of Luc Montagnier, Gurwitsch, Benveniste, or others doing similar research are invited to contact the author (joreed43@gmail.com) to get copies of the articles referenced below, as well as, additional information on this subject matter.

United States Psychotronics Assn. (USPA) Periodicals Library Update

In order to do good psychotronics research of any kind, whether it involves radionics, radiesthesia, psionic medicine, dowsing, subtle energies, biophotons, or any other subject covered by psychotronics, you need to have access to as much of the periodical literature as possible on these subjects.

To address this issue, the USPA has resolved to identify and acquire every psychotronics related periodical that has ever been published anywhere in the world, and to retain copies in the USPA Library for the benefit of USPA members.

As a first step, we have developed the following list of periodicals that focused on or frequently had articles on psychotronics related subjects. But this is only a preliminary list, and we know that there are probably more psychotronics periodicals that have been published, but that we do not yet know about.

So please look over the following list and check your own personal physical libraries and your computers to see if you have any issues of the periodicals on this list. Even if you just have one issue, please let us know, because that may be the one we need to complete all the issues of a particular periodical. **Please write to me (John) at: joreed43@gmail.com, since I am the USPA librarian and archivist coordinating this effort,** and tell me what periodicals you have.

As a whole, the members of USPA have a huge “library” of periodicals, but it just happens to be “distributed” among its members at this point in time. However, we can work together, and if you would be willing to loan, donate, xerox, or as a last resort, sell copies of your periodicals for the USPA Library, then we will be able to build a large centralized library of all psychotronics periodicals. And all USPA members will then be able to use these periodicals in their research or for their reading enjoyment.

Bioelectromagnetics: Published by John Wiley and Sons from 1980 to present. We need all issues.

Bridges: This was the newsmagazine of the International Society for the Study of Subtle Energies & Energy Medicine (ISSSEEM) from the 1980's through about 2010, after which it was discontinued. **We have a complete set of this periodical.**

British Journal of Radiesthesia and Radionics. Published by the British Radiesthesia Association, 1953-1963. The original title was British Journal of Radiesthesia. We need all issues.

DeLaWarr Laboratories Newsletter: published by George and Marjorie DeLaWarr, and later their daughter Diana Di Pinto, from 1964-1986. **We have a complete set of these,** unless you know of any issues published after 1986.

Dowsing Today: The journal of the British Society of Dowzers, published from 2000 to the present. Original title was Radio Perception, which began in 1933. We need all issues.

Electro and Magnetobiology: Published by Taylor and Francis from 1993-2002. Title was changed to Electromagnetic Biology and Medicine. We need all issues.

Electromagnet Biology and Medicine: Published by Taylor and Francis from 2003-present. We need all issues.

Electronic Medical Digest: published 1946 to about 1955, also by Fred J. Hart and the College of Electronic Medicine. We need all issues.

Journal of Bioelectricity: Published by Taylor and Francis from 1982-1992. Title was changed to Electro and Magnetobiology. We need all issues.

Journal of Electronic Medicine: This was a continuation of Physico-Clinical Medicine, and ran from 1939-1945, published by Fred J. Hart and the College of Electronic Medicine. We need all issues;

Journal of the British Society of Dowzers: Published by the British Society of Dowzers from 1956-2000. Prior title was Radio Perception. Succeeding title: Dowsing Today. We need all issues.

Journal of the United States Psychotronics Association. Published by the United States Psychotronics Association. Only six issues were published, and **we have a complete set.**

Mind and Matter: published by George DeLaWarr of the DeLawarr Laboratories in Oxford, England from 1957-1967. **We have a complete set of these very rare journals.**

Newsletter of the Institute of Psionic Medicine. Published by the Institute of Psionic Medicine only from 1978-1979. We need all issues.

Newsheet of the Psionic Medical Society. Published by the Psionic Medical Society in the England only from 1975-1977. We need all issues.

New Zealand Society of Dowsing & Radionics Journal. Published by the New Zealand Society of Dowsing & Radionics from 1988-present. We need all issues.

Physico-Clinical Medicine: This journal was started in 1916 by the father of radionics, Dr. Albert Abrams, and continued to be published up through 1938, by Fred J. Hart, who took over the College of Electronic Medicine after Abrams died in 1924. **We have all issues from 1916-1923**, but need all issues from 1925-1938.

Psionic Medicine. Published by the Psionic Medical Society in the UK from 1969-around 1991. We need most issues.

Radio Perception. This was the original title of the Journal of the British Society of Dowzers, which began in 1933 and was published under that name until around 1956, when its name was changed to the Journal of the British Society of Dowzers, and continues today under the name, Dowsing Today. We need all issues.

Radiesthesia. Published by the Dowser's Club of South Australia, and began in 1992. We need all issues.

Radionics Journal: Published by the Radionics Association in England from 1954 through the present. We **have a complete set of these from Vol. 1, no. 1 (1954), through 2005**, but need all issues published after 2005.

Resonance: Newsletter of the Bioelectromagnetics Special Interest Group (BEM SIG) of American Mensa during the 1980s and 1990s. **We have a complete set of this rare periodical;**

Subtle Energies and Energy Medicine: Published by the International Society for the Study of Subtle Energies and Energy Medicine (ISSSEEM) from 1990 through the present, with some interruptions. We have some, but need most of these.

USPA Newsletter: Published by the United States Psychotronic Association from 1977 through present. **We have a complete set.**

USPA Local Groups and Affiliates Update

As mentioned in previous USPA Newsletters, one of our goals is to reactivate all of the former 24 USPA Chapters that once existed across the US and world. In addition, we plan to establish new local groups of people interested psychotronics and related subjects in other major cities in the US and other countries as well. All such local groups and affiliates will be independent, but will work together with the USPA in a mutually beneficial relationship to achieve our goals of advancing research and applications in psychotronics, radionics, subtle energy, and related fields.

So I would like to invite all of former USPA Chapters leaders and members to contact me (John Reed) at: joreed43@gmail.com and let me know if you would like to help reactivate your local chapter. In addition, if you are a leader or member of a psychotronics or related organization which was never a chapter of USPA, and we would welcome you as a USPA affiliated organization as well.

We will be establishing a USPA affiliated groups as traditional organizations and also via the Meetup.com online group platform. This will enable current and former members to more easily have local get-togethers, meetings, and other activities, and those activities, times, and other details can be posted online. So please let me know if you would like to be the leader of a group in your area.

If you do decide to use Meetup.com to establish your local group, you could do it quickly and easily by going to www.meetup.com , and clicking on the big red word “**Start**” in the upper left, and then just following the step-by-step procedures.

You can give your local group any name you want, but it should probably have a name that relates to psychotronics in some way. And if you need any help, please let me know, and I will help you in any way I can. Perhaps the most important thing is enthusiasm and determination, so write to me, even if you don't know any other USPA members in your area, and I will help you set up a local group: joreed43@gmail.com

Exchange Corner

The "Exchange Corner", is a place for USPA members to buy, exchange, or sell items of interest, or request information or other help in relation to something wanted. So if there is anything you want to buy, sell or trade that has to do with psychotronics, radionics, subtle energy, or related subjects, please contacted the Classified Ads manager at: usparesearch@gmail.com. For the next few issues, all such ads will be free of charge, so please send your ads and wanted requests as soon as possible before advertising charges begin.

Bruce Copen MARS III for Sale

I am a current USPA member and have a **Bruce Copen MARS III** for sale. The system is about 7 or 8 years old and in original, excellent condition. Sale includes original SCOPE analysis, database and broadcast software, HP laptop, comprehensive training manual and program disc, interconnects and boxes. I have always run it on XP with no issues; everything original as supplied by Copen.

All operations can be automated and multiple broadcasts can be run simultaneously, although Copen saw to develop this device so it could be used in many radionic styles and without computer control. The price is \$8500 USD roughly half the original cost. I prefer to not ship to a destination outside the USA. A limited amount of training by me, as I understand it, is available to a confirmed purchaser, as time and distance reasonably permit. Please contact: **Dr Robert Dixon**, robertdixondc@gmail.com or [call \(304\)-268-7707](tel:304-268-7707) Berkeley Springs, WV.

Wanted: Any issues of the Newsletter of the American Society of Dowzers, published from 1961 through 1963. These were 8.5X11 inch sheets stapled together, and not the digest size journal that you may be familiar with, which began in 1964. Contact John at: joreed43@gmail.com

Harmonic Translation System per Jon Monroe, ver. 9.3, complete, original, little used, with manual, video, software and Mayan Codes app. \$2000.00. Contact Bob Dixon DC, (304) 268-7707 or drrobertdixon@aol.com."

Wanted: Any articles, periodicals, books, devices, or other materials on psychotronic related subjects that you can donate or lend to the USPA for its library, archives, and museum. **The USPA is a nonprofit, 501(c)(3), tax exempt organization, and as such, you are able to make tax deductible donations to the USPA. Please email the USPA at: usparesearch@gmail.com to make arrangements. Thank you for your generosity.**

WHAT IS PSYCHOTRONICS?

The United States Psychotronics Association defines psychotronics as the science of mind-body-environment relationships, an interdisciplinary science concerned with the interactions of matter, energy, and consciousness. Psychotronics involves the study, research, and applications of the physics and technology of the mind, brain, spirit, consciousness, and the underlying forces of life and nature – hence the term “psychotronics”.

We believe that a true understanding of the universe must include the spiritual, as well as, the technical, and provide an opportunity for amateur researchers to present their findings along with the professionals. We stress research, with documentation of results, and practical applications, rather than personal experience and unsupported hypotheses.

Some Prominent People in the history of psychotronics research and application: Albert Abrams, Thomas Bearden, Robert C. Beck, Robert O. Becker, Jacques Benveniste, David Bohm, Harold Saxon Burr, George W. Crile, Ruth Drown, T. Galen Hieronymus, Vlail P. Kaznacheyev, Georges Lakhovsky, Wilhelm Reich, Royal R. Rife, Rupert Sheldrake, Nikola Tesla, Marcel Vogel, and others.

Some of the forces, fields, waves, and energies studied and researched in psychotronics include: bioelectromagnetism, biophotons, biopotentials, electromagnetic wave pollution and harmful effects; coherent emanations of DNA, emanations of matter, “free energy”, morphogenetic fields, non-hertzian waves, orgone energy, pyramid energy and power, qi (chi), quantum fields, scalar waves, subtle energies, ultra-weak radiation of living matter, zero-point energy, and others.

Some of the phenomena believed to be produced or involved with the above fields and energies: action-at-a-distance, the aura of the body and other living things, bioinformation, bioluminescence, chakras, consciousness, distant intercellular interactions, meridians of the body, mind-body interactions, non-locality, the placebo effect, quantum consciousness, spontaneous remission of cancer and other diseases, water memory, water structure, and others.

Related fields of study and research covering the above forces, energies, and phenomena of psychotronics: bioelectromagnetics, bioenergetics, biophotonics, biophysics, psionics, psychoenergetics, psychoneuroimmunology, quantum biology, radionics, scalar electromagnetics, and others.

Some practices, techniques, and applications related to psychotronics include: acupuncture, biogeometry, brain entrainment, clairvoyance, dowsing, energy healing and medicine, extrasensory perception, feng shui, homeopathy, kirlian photography, magnetic therapy, pendulum use and methods, prayer effects, psionic medicine, psychic healing, psychometry, qigong, radiesthesia, radionics, remote viewing, shamanism, sound and sonic healing, telekinesis, telepathy, and others.

Membership Benefits

So if you are interested in any of the above subjects, then the USPA is the place for you, where you can interact with, exchange ideas, and collaborate with other people who are interested in the same subjects. So sign up now for membership in the USPA using the form on the following page and start enjoying all of your membership benefits. These benefits include, but are not limited to:

1. **Free access to the USPA Psychotronics Library** of articles, periodicals, books, and certain audio tapes, videos, and other materials on the above subjects, useful to your research.
2. **Your free subscription to the USPA Newsletter;**
3. **Your right to freely publish articles in the WISE Journal - The Journal of the World Institute for Scientific Exploration (ISSN 2381-1536),** enabling the world to see your ideas or research, and thereby enhance your resume and credentials;
4. **Your right to use the USPA Literature Research Service,** whereby we will find any article, book, or other item you are seeking on the above subjects, and provide it to you;
5. **Your right to participate in the USPA “Research Assistance Program”,** especially useful to professors, authors, and other researchers, who need extra help on their projects. USPA will help find volunteers to help you with your research project(s).
6. **Your right to be part of the USPA Project Participation Program,** whereby you can volunteer to help on numerous available USPA projects, or help researchers who are conducting research on psychotronics and related subjects.
7. **Your right to make oral or poster presentations at the annual USPA meeting,** with the approval of the Annual USPA Meeting Planning Committee.
8. **Your right to discounts** on the purchase of certain items and services made available for sale or provided by the USPA and its members.
9. **Your right to freely advertise in the WISE Journal,** which goes out to thousands of people.
10. **Your right to participate in the USPA Psychotronic Literature Preservation Program (UPLPP).** The USPA, via its Library and Archives, has established a “Literature Preservation Program” to preserve your personal papers, files, records, and collection of articles, periodicals, books, and devices on psychotronics and related subjects, noted above. You may no longer need or use some of these items that you have, and you can send them to the USPA, and we will preserve them in our library and archives, so that they can be of use to other researchers.

MEMBERSHIP INFORMATION

The U.S. Psychotronics Association (USPA), was incorporated in the District of Columbia in August, 1977, and is a nonprofit, 501(c)(3), tax exempt organization, and as such, you are able to make tax deductible donations to the USPA. It is empowered to enroll members in the parent organization throughout the United States, Canada, and other foreign countries. Membership is open to all people who wish to join with the USPA on the new frontiers of science in working constructively for the qualitative improvement of man and his environment. **Please remember the USPA in your annual charitable giving, especially if you want to advance research in the above subject areas, which can greatly benefit humans, animals, plants, and the environment.**
