2:47:31	Trina C.:	Ill be taking the classes first, and go from there.
2:47:44	Trina C.:	Thank you so Much! thank you all!!
2:47:45	Daniel Taylor:	Sharry, once you were able to identify a frequency for Covid, the natural course would be to look for its reciprocal. Would you share with us what you found when you examined that reciprocal?

3:08:26	Ann R.:	I'm a thorn in the side of the local county health dept. 3min every month and letters to their Board of Health citing the Truth that's emerging in the courts.
3:08:38	Thad M.:	There are many examples of frequencies that act in a manner much like homeopathy where the detriment (disease) has a frequency that when

		presented to the body evokes a healing response. It is arguable that some radionic machines send back the frequency out of phase (e.g. this was part of T. Galen Hieronymus' interpretation of the response to his devices) These are well worth scientific investigation and sharing. Distinct from that are Rife styled machines where the intent is to use the pathogen's resonant frequency to destroy it selectively. Again, worth serious research to find, test, and share those. The very technologies that spread confusion are also means to raise awareness and be very precise to spread facts.
3:08:43	Beth:	A friend who is a sound healer using vocal overtones can hear the exact sounds someone needs and then make them with his voice. He has exploded rumours this way but would never tell anyone about this for obvious reasons. So it is possible and I think we can all do this with awareness and focus
3:14:32	Trina C.:	so I should not use Bluetooth earphones?
3:14:35	Linda:	QUESTION for DAN or GLEN - Dan, so making an out of phase remedy is different than just making a homeopathic dilution from a body fluid, as in with the oil pulling or mastitis examples? Can you explain the difference, if so?
3:14:55	Ann R.:	Replying to "so I should not use ..."no, Trina, no!
3:15:15	Beth:	Yep RFK jr caught them in a lie about mercury in vax. He knows about mercury because of his environmental litigation successes on the Hudson River and elsewhere.
3:15:47	Beth:	Reacted to no, Trina, no! with "👍"
3:16:05	Trina C.:	Reacted to "no, Trina, no!" with 👍

3:17:16	Beth:	mMRNA vax used in farm animals and sprayed on plants. God help us
3:17:24	Thad M.:	Specifically, what is needed in response to any epidemic is: Safe, Effective, and Readily Available, and Affordable treatment. In the circumstance of Covid-19 the simplest and clearest example is by Dr. Shankara Chetty of South Africa. Any of his discussions published on YouTube contain an explanation. The FLCCC protocols also present independently developed ways to deliver this. FLCCC has started a new independent medical science journal for honest research independent of pharmaceutical power players.
